- Save emails and attachments
- Save to recommended locations

Instant search

Search people

Advanced filters

Search across M365 apps

Find anything in seconds

- Instantly search as you type
- Search by people
- Advanced filter and sort options

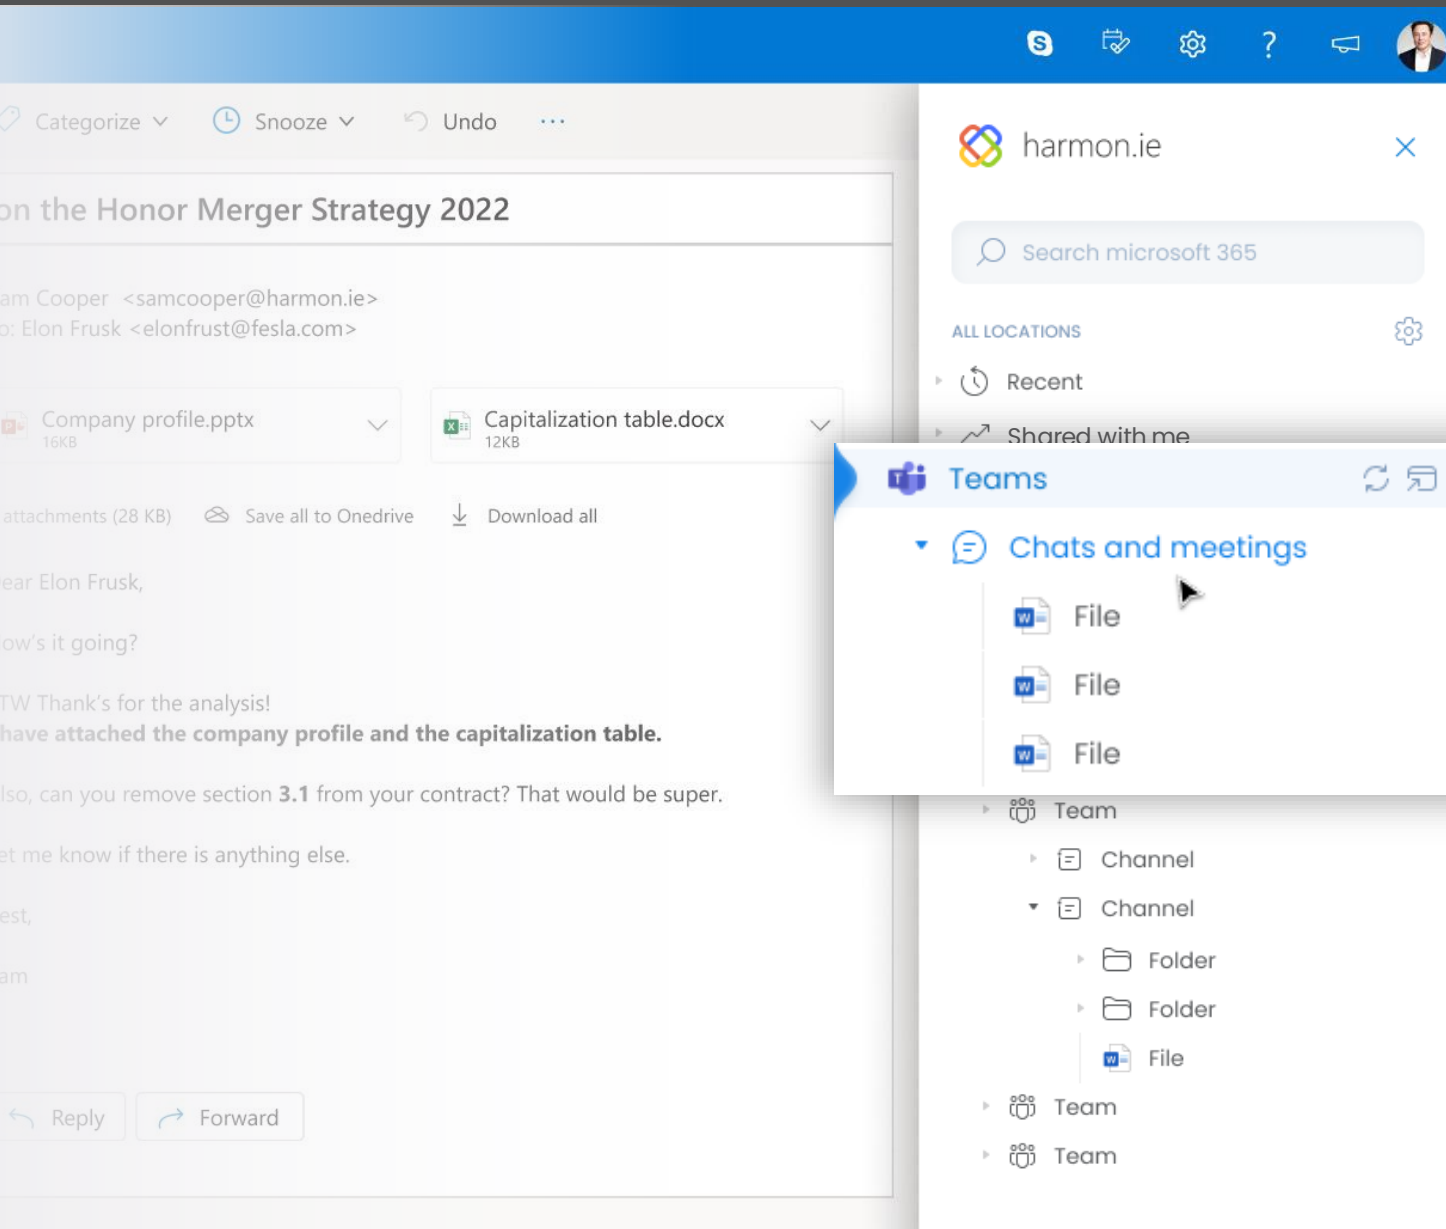

The screenshot shows an Outlook email interface. The main pane displays an email from Sam Cooper (samcooper@harmon.ie) to Elon Frusk (elonfrust@fesla.com) dated Monday, 7/25/2022 at 9:57 AM. The email subject is "More on the Honor Merger Strategy 2022". Two attachments are visible: "Company profile.pptx" (16KB) and "Capitalization table.docx" (12KB). Below the attachments, the email body text reads: "Dear Elon Frusk, How's it going? BTW Thank's for the analysis! **I have attached the company profile and the capitalization table.** Also, can you remove section **3.1** from your contract? That would be super. Let me know if there is anything else. Best, Sam". At the bottom of the email, there are "Reply" and "Forward" buttons.

The right sidebar shows a navigation pane for "harmon.ie". It includes a search bar and a list of "ALL LOCATIONS": Recent, Shared with me, Favorites, SharePoint, Finance, Ravenwood site (with sub-folders Collateral and Legal), Reference List.docx, Meodel.01, Sales, Contstructions, RW Contracts, Teams, and OneDrive. A blue notification box is overlaid on the sidebar, stating "Save selected email from @Sam Cooper" and listing the email title "More on the Honor Merger Strategy 2022" with "+2 attachments".

One-click email saving

The easiest way to save

- Save emails and attachments
- Save to recommended locations

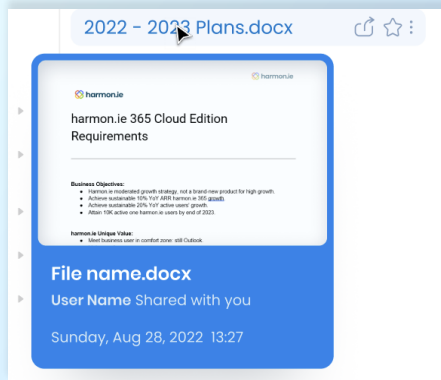

Organize Teams files in a snap

No more trade-off between SharePoint and Teams

- See files from chats & meeting
- Add metadata to Teams files
