Intelligent harmon.ie Roadmap

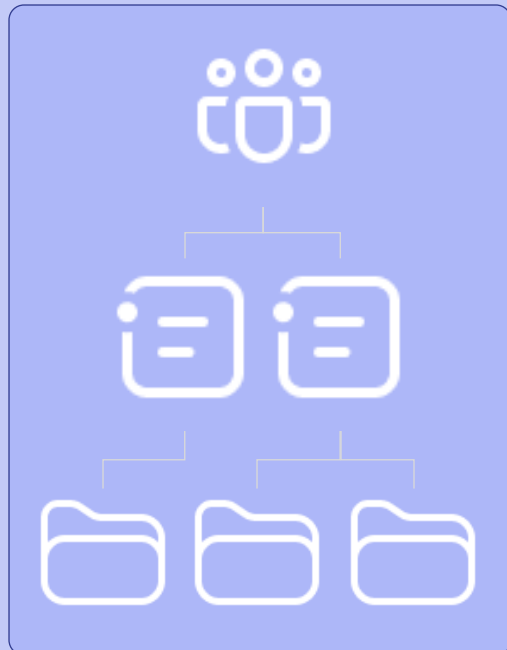

Introducing harmon.ie

Example use case: project / case management

Teams App

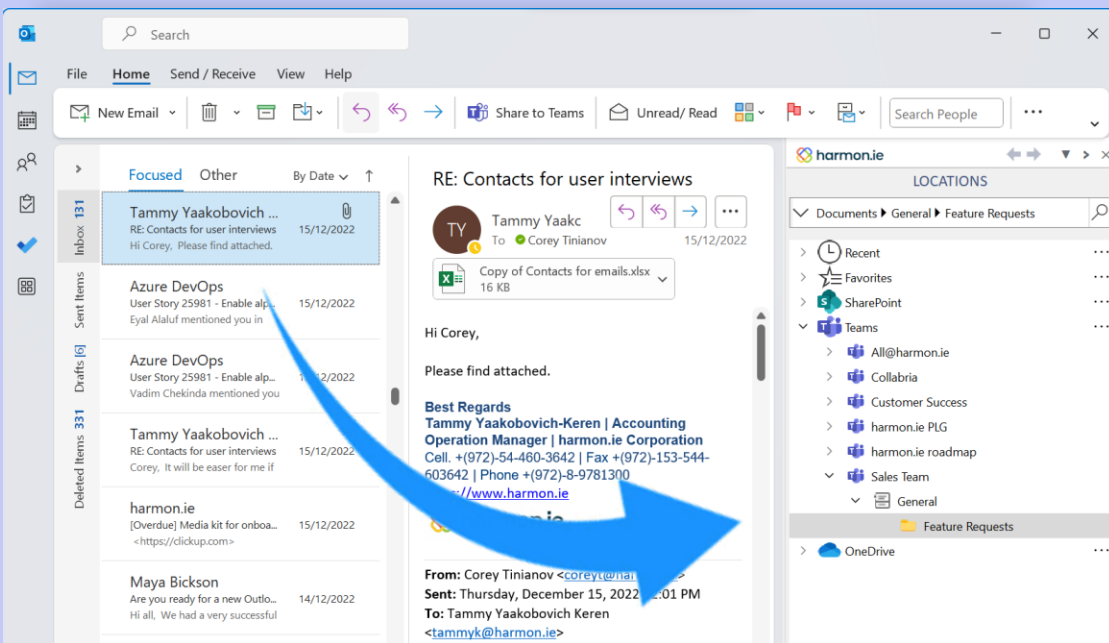

Teams (working groups)

Channels (specific projects)

Folders (project artifacts)

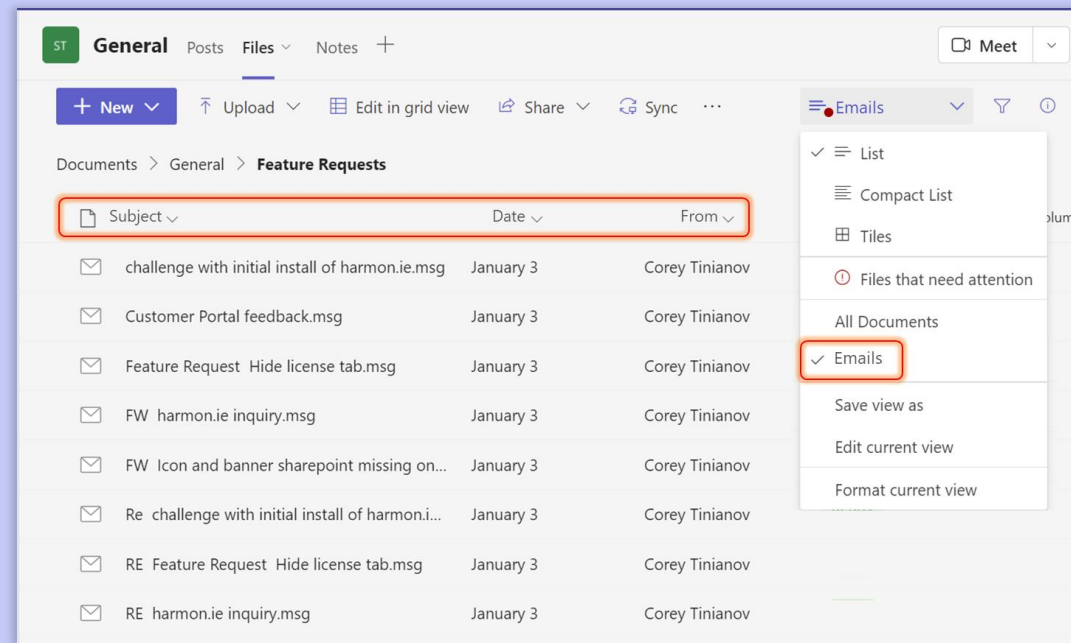

Previous Release – Automatic Email View in Teams

Save emails to Teams from Outlook with harmon.ie

Drag and drop **email** to a channel

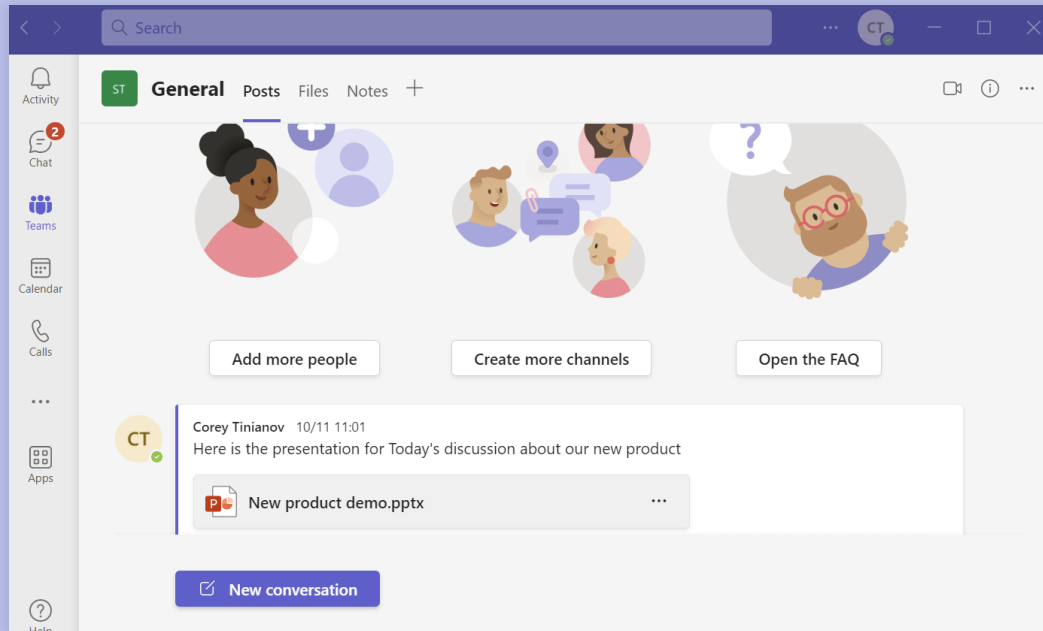

Email view automatically created with metadata

Select email view in channel files

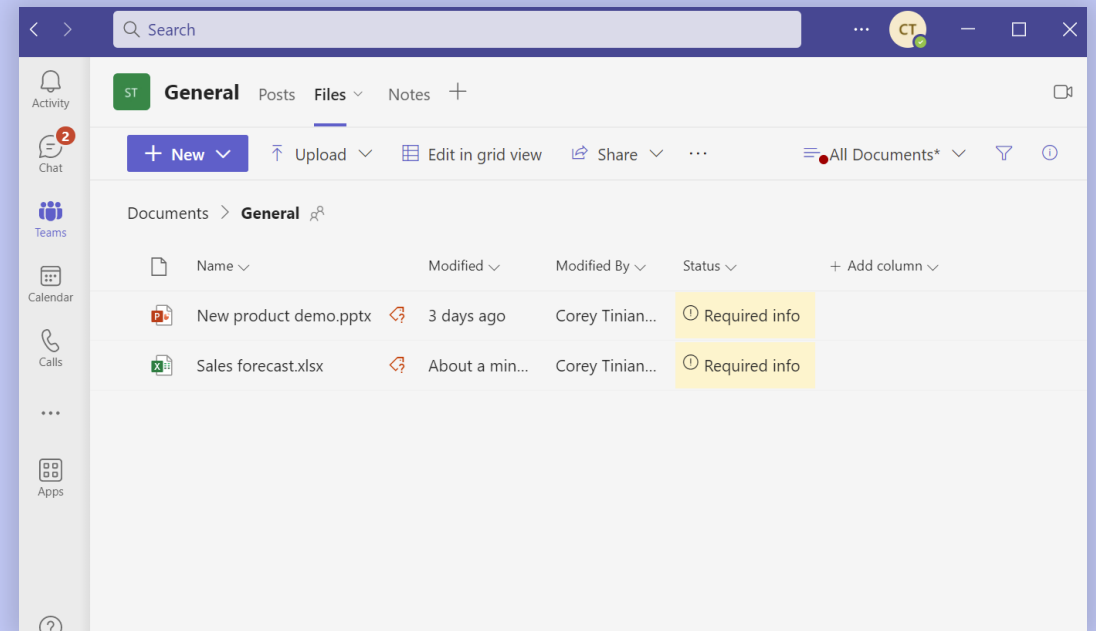

The Teams dilemma: Collaborate or Classify

Posts Tab

Share in channel, organize later

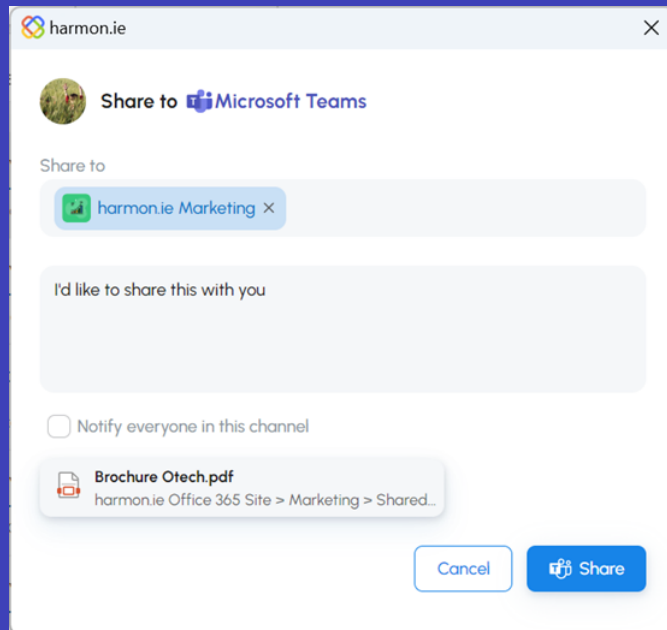

Files Tab

Classify in files, share later

harmon.ie 10

Product Demo

Share & Organize in one flow

When uploading to a Teams location,
share to that location

Permissions and Consent

- **'Share to Teams'** feature that required a change in the harmon.ie app id; requiring a new M365 consent.
- More details available here:
<https://harmon.ie/KB/teams-integration-setup>

Harmon.ie 10 is available now
